COURT RULES

SETUP / BLUFF / CHALLENGE / SURVIVE

SET UP & WIN
Deck: 3 of each role. Deal 2 hidden cards and 2 coins each. With 2 players, the first takes 1 coin. Last player with influence wins.

YOUR TURN
Take 1 action; play moves clockwise. At 10+ coins, you must Coup. Keep coins visible. You may bluff any role.

CHALLENGES
Anyone may challenge a role claim or block before it resolves. Income, foreign aid and Coup cannot be challenged.

PROVE YOUR CLAIM
Show the role: the challenger loses 1 influence. Shuffle your shown card into the deck, draw a replacement, then resolve the claim. Otherwise, you lose 1 influence; your claim fails. A challenged action that fails refunds its cost.

BLOCKS
Anyone may block foreign aid as Duke. Only the target may block stealing or assassination. A successful block stops the action; assassination coins stay spent. Blocks can be bluffed and challenged.

LOSING INFLUENCE
Reveal a hidden card permanently; it loses its powers. Lose both: you are out. A failed Assassin challenge can cost 1 influence, then assassination another.
